Your Audience Has Moved. Has Your Marketing?

In small towns like ours, we've long valued newspapers and radio.
But where people spend time has changed.

Watching YouTube

Playing mobile games

Streaming videos on Smart TVs

Locally Targeted Video Ads

Advertise where people's eyes are already

- ✓ Start with just a \$5/day budget
(you pay directly to google each month)
- ✓ Only spend from your budget when
someone watches the full commercial
or clicks to visit your website
- ✓ Hyperlocal targeting by county or zipcode

Minimum 6-month commitment. Why?
It allows Google's algorithm to optimize results.
